New electric vehicle charging stations open on Kansas Turnpike

WICHITA, Kan.— Just in time for the holiday weekend, three Tesla Supercharging stations have opened at service areas along the Kansas Turnpike:

- Lawrence Service Area (Mile Marker 209, I-70/KTA)
- Topeka Service Area (Mile Marker 188, I-70/KTA)
- Towanda Service Area (Mile Marker 65, I-35/KTA)

Located adjacent to the service areas buildings, the new Tesla Superchargers stations will help Tesla drivers stay charged anywhere. There are at eight Superchargers available at the Topeka and Towanda service areas, and 12 available at the Lawrence service area.

“We began making electric vehicle charging available in 2019 based upon feedback received in our annual customer satisfaction survey,” said Steve Hewitt, KTA’s Chief Executive Officer. “We’re excited for these Superchargers to become a reality for our Tesla vehicle customers.”

About KTA:

For 65 years, the Kansas Turnpike Authority (KTA) maintains 236 miles of user-fee supported roadway from the Oklahoma border to Kansas City. KTA doesn’t receive state or federal tax funds. Instead, toll revenue pays for preservation and modernization of the Turnpike system. [KTA’s Strategic Plan](#) supports organizational goals with four strategic initiatives, including a transition to cashless tolling in 2024. KTA’s mission is to move Kansas forward by operating a safe, reliable and customer-valued turnpike system in a fiscally responsible, businesslike manner.
